To earn a degree from Emory College, every student must complete the requirements for a major. Minors are available in some departments, but are not required. (See list of majors and minors on back of this form.)

MAJOR

To declare a priority major, fill in A.

To declare a second non-priority major, fill in B.

To change either major, go to the new department and complete a new form.

Juniors and Seniors will receive priority in course selection in major A if declared at least 3 weeks before the beginning of pre-registration.

Students may be certified in TWO, but not more than two, areas of concentration (e.g. two majors, or one major and one minor).

DROPPING A NON-PRIORITY MAJOR OR A MINOR

Since a non-priority major or a minor is not a requirement for Emory College students, either can be dropped by completing the line below.

Because all Emory College students must complete one major, the priority major cannot be 'dropped,' only changed.
